## About CyberMatrix Corporation

CyberMatrix is a Calgary-based software company. Starting in May 1993 as CyberMatrix Computing, we focused mainly on computer consulting and some of our own commercial software development. In February 1998, the company was incorporated and began operating under the name CyberMatrix Corporation, Inc.

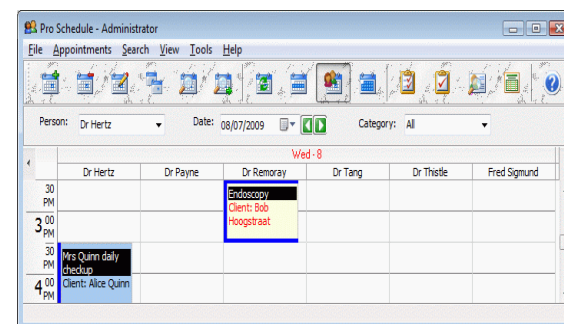

At CyberMatrix, we are committed to meeting the needs of businesses with quality software and dedicated customer support. We know that in order to succeed, the customer must always come first and foremost. We are always open to suggested improvements to our software and strongly encourage feedback.

Currently, our company's main focus is developing and selling quality business software. However, we can also perform customizations of our existing software for those customers with special needs. We can even develop specialized applications for interested companies.

We count among our customers fortune 500 companies, various government agencies and several respected Universities. We invite you to become one of our many satisfied customers too. For more information and a list of our products, visit our website at
